

Hello, and welcome to the first edition of the **Project YaREN newsletter!** **Each month**, we will share updates about our proposed low-carbon blue ammonia facility along with highlights from community activities.

Our goal is to **maintain transparency** and **keep you informed** about how our team is actively communicating **project safety**, **upholding strict environmental standards** and **strengthening community partnerships**.

GROWING Ingleside ROOTS

We are planting strong roots in the Ingleside community – by bringing in more native plants!

Our team is partnering with the [Coastal Bend Bays and Estuaries Program](#) to bring awareness to the crucial role of native plants in the coastal ecosystem and discuss how Project YaREN prioritizes the environment in and around Ingleside.

Come visit us during the Growing Ingleside Roots event and **get your FREE drought-tolerant native plant to take home.**

FAST FACTS

Project YaREN aims to be a good steward of the environment, including protecting the local habitats that support birds, fish and other wildlife.

- 1 In-water structures have been designed to protect seagrass from erosion.
- 2 We seek to exceed regulatory standards and return seawater to the bay in a manner that protects marine life.

Stay informed: Updates and insights from Project YaREN

Our blog is your go-to source for project updates, team insights and community-partner highlights. From safety initiatives to local partnerships, we're sharing stories from the Coastal Bend, for the Coastal Bend.

SUPPORTING COASTAL CONSERVATION IN CORPUS CHRISTI

EMPOWERING THE NEXT GENERATION OF WOMEN IN INDUSTRY

We are looking forward to partnering with the community and will continue to provide updates to keep you informed.
